

PRESS RELEASE

CCREEE appoints Dr Devon Gardner as Head of Technical Programmes

5 January, 2022; Bridgetown, Barbados – The Caribbean Centre for Renewable Energy and Energy Efficiency (CCREEE) has appointed Dr Devon Gardener as Head of Technical Programmes.

Dr Gardner – who holds a doctoral degree in chemical physics – served as the Caribbean Community (CARICOM) Secretariat’s Programme Manager (Energy) and Head of the Energy Unit for more than seven years. He also served the region in prior roles at the University of the West Indies, St Augustine Campus and the Caribbean Community Climate Change Centre, among others.

Dr Gardner has supported a number of areas within the Caribbean energy sector namely, the development of the CARICOM Regional Energy Efficiency Building Code (CREEBC); the establishment of the Credit Risk Abatement Facility (CRAF); the development of Integrated Resource and Resilience Planning (IRRP); and the establishment of the CCREEE.

As Head of Technical Programmes at the CCREEE, Dr Gardner will have responsibility for the Project Preparation Facility (PPF), Integrated Resource and Resilience Planning,

the CARICOM Energy Knowledge Hub (CEKH), communications and public relations, resource mobilisation, and others.

Dr Gardner takes up his new appointment from February 1, 2022.

About The CCREEE

The [Caribbean Centre for Renewable Energy and Energy Efficiency](#) (CCREEE) is a specialized institution of the Caribbean Community (CARICOM). Established in the framework of the Global Network of Regional Sustainable Energy Centres (GN-SEC), the CCREEE is the implementation hub for sustainable energy activities and projects within the CARICOM region.
