St. John's, Antigua and Barbuda (June 5, 2026) — The Antigua and Barbuda College of Advanced Studies (ABCAS) received a donation of whiteboards and flip charts from the American University of Antigua (AUA) during a handover ceremony held on Thursday, June 4, 2026.

The items were presented by representatives of AUA and form part of the ongoing collaboration between the two institutions. The resources will be distributed across ABCAS campuses to support teaching, training, and student engagement, with particular value to the School of Agriculture as it prepares to launch its Associate Degree in Agriculture programme in the upcoming academic year.

Dr. Greene expressed appreciation and joined Minister of Education, Hon. Daryll S. Matthew, in thanking AUA for its continued support of education and training in Antigua and Barbuda.

"ABCAS values the strong relationship we have developed with AUA. We are thankful for their continued support and look forward to building on this partnership as we work to create even greater opportunities for learning and development across Antigua and Barbuda," said Dr. Greene.

ABCAS extends its sincere thanks to AUA for the donation and looks forward to continued collaboration in support of education and training across the nation.
